

THE HONG KONG COLLEGE OF OTORHINOLARYNGOLOGISTS

LOG BOOK SUMMARY

NOTE: This form is to be typed. Handwritten form will not be accepted. Please complete and return an original form to the College Secretariat.

Name of Trainee: _____ Hospital: _____

This reporting period from _____ to _____

Cumulative total duration of basic/higher surgical training in Otorhinolaryngology: _____ (months)

A. Operations Performed

Procedures of high level of skill	Chief surgeon No. this term	Chief surgeon cumulative total	Assistant No. this term	Assistant Cumulative total
Otology				
Canaloplasty for aural atresia, stenosis				
Cerebello-pontine angle tumor/mass removal				
Cochlear implant, brain stem implant				
Decompression of endolymphatic sac				
Facial nerve – exploration, decompression, repair				
*Mastoidectomy (> =10)				
Ossiculoplasty				
Otoplasty for microtia, severe deformity				
Repair of round window or oval window fistula				
Stapedectomy				
Vestibular neurectomy				
Tumor of external or middle ear – resection				
Other (please specify):				
Rhinology				
Choanal atresia operation				
Dacryo-cysto-rhinostomy – endoscopic, external				
*FESS – endoscopic ethmoidectomy, fronto-ethmoidectomy, sphenoidectomy (>=30)				
External fronto-ethmoidectomy, obliteration				
Maxillary, sphenopalatine or ethmoidal artery ligation				
Orbital, optic nerve decompression, biopsy				
Repair CSF leak				
Rhinoplasty				
Other (please specify):				

Laryngology				
Laryngeal fractures and dislocations - open reduction				
Laryngeal/tracheal stenosis, laryngomalacia, web, cleft – endolaryngeal/open operation, stenting, reconstruction				
Laryngeal diversion				
Pharyngeal diverticulum operation				
Endolaser surgery benign tumor– papillomatosis, haemangioma, vocal cord lesion				
Vocal cord palsy procedures – open thyroplasty, arytenoid adduction/abduction				
Laryngeal framework procedure for indications other than cord palsy				
Surgical treatment of tracheostomy complications - fistula				
Other (<i>please specify</i>):				
Head and Neck Surgery (Note: >= 10 major head and neck procedures)				
Craniofacial malformation, cleft lip reconstruction				
Exploration for major complications – haemorrhage, CSF leakage, chyle leakage, sepsis, flap failure, fistula				
Facial reanimation - nerve graft, muscle transplant, sling, face lift, blepharoplasty				
Fistula repair – branchial, pharyngeal, tracheal				
Flap – revascularized free				
Flap – regional pedicle				
Fracture maxilla, orbit, zygoma, mandible - reduction, fixation				
Manubrium resection				
Neck dissection				
Parotidectomy				
Parathyroidectomy				
Removal of foreign body in trachea and bronchus				
Resection of tumor of hypopharynx and esophagus				
Resection of tumor of larynx – partial or total				
Resection of tumor of lateral skull base				
Resection of nasopharyngeal tumor				
Resection of tumor of nose, sinus, anterior skull base				
Resection of tumor of oral cavity, mandible				
Resection of tumor of oropharynx				
Resection of tumor of parapharyngeal space – carotid body/glomus tumor, paranasopharyngeal tumor, brachial cyst, any other large size tumor/mass				
Resection of tumor of skin/scalp with flap reconstruction				

Resection of tumor of trachea				
Submandibular gland excision				
Thyroidectomy				
Vascular graft				
Robotic procedures (<i>please specify</i>):				
Other (<i>please specify</i>):				
Subtotal of all High Level Procedures				

Procedures of Intermediate Level of Skill	Chief surgeon No. this term	Chief surgeon cumulative total	Assistant No. this term	Assistant Cumulative total
Otology				
Aural exostosis - simple removal				
Bone anchored hearing aid				
Meatoplasty				
*Myringoplasty (>=40)				
Otoplasty of simple auricular deformity, bat ear				
Other (<i>please specify</i>):				
Rhinology				
Adenoidectomy				
Antrostomy – inferior, middle meatus				
Caldwell-luc operation				
*Deviated nasal septum - septoplasty, submucosal resection (>= 20)				
Oro-antral fistula, closure				
Sleep related breathing disorder – eg. LAUP, UPPP, tongue base suspension/resection, radiofrequency ablation				
Other (<i>please specify</i>):				
Laryngology				
Arytenoid subluxation – laryngoscopic reduction				
Injection augmentation of vocal cord for glottic insufficiency/vocal cord palsy				
<i>Vocal cord palsy procedures – cordectomy, arytenoidectomy, lateralization of vocal cord</i>				
Laryngeal/pharyngeal Botox injection				
*Microlaryngoscopic surgery - nodule, polyp, Reinke's edema (>= 20)				
Pharyngoplasty				
*Tracheostomy – temporary, permanent, revision (>=20)				
*Tonsillectomy (>=30)				
Vallecular cyst, removal				
Other (<i>please specify</i>):				

Head and Neck Surgery				
Abscess in submandibular, parapharyngeal, thyroid – drainage				
Botox injection of salivary gland/Frey’s syndrome				
Cleft palate - local flap repair				
Facial reanimation - gold weight				
Flap -local				
Gold grain implant of nasopharyngeal tumor				
Removal of foreign body in esophagus				
Ligation of carotid artery				
Mass excision – thyroglossal cyst, small/simple tumor/mass, lipoma, neurofibroma, nasolabial cyst				
Osteointegrated implant				
Chemical ablation of head and neck cystic lesions or vascular malformations				
Radiofrequency ablation of thyroid				
Ranula - marsupialization or excision of sublingual gland				
Removal of salivary duct stone				
Sialendoscopy +/- intervention				
Submandibular duct relocation				
Resection of tumor of skin and scalp – primary closure				
Deep cervical lymph node excisional biopsy				
Scar revision				
Skin graft				
Stricture of pharynx, esophagus - dilatation				
Tracheoesophageal puncture for voice rehabilitation or repair/closure / excision of TE fistula				
Other (<i>please specify</i>):				
Subtotal of all Intermediate Procedures				

Procedures of Minor Level of Skill	Chief surgeon No. this term	Chief surgeon cumulative total	Assistant No. this term	Assistant Cumulative total
Otology				
Biopsy of ear lesion				
Haematoma auris – drainage, buttoning, excision				
Injection of tympanum				
Myringotomy alone				
Myringotomy + insertion of grommet				
Removal of foreign body in ear				
Other (<i>please specify</i>):				

Rhinology				
Biopsy of nasal cavity / nasopharyngeal lesions				
Cauterization to control epistaxis				
Nasal polyp, simple polypectomy				
Removal of foreign body in nose				
Turbinectomy/turbinoplasty, laser/thermal/radiofrequency ablation of turbinate				
Other (<i>please specify</i>):				
Laryngology				
Biopsy of pharynx, larynx				
Removal foreign body in pharynx, larynx				
Other (<i>specify</i>):				
Head and Neck Surgery				
Superficial abscess of head & neck – incision				
Fracture nasal bone - simple closed reduction				
Oral lesion, retention cyst, torus palatinus, dental cyst - simple excision/ biopsy				
Preauricular cyst or sinus – excision				
Peritonsillar abscess – incision				
Skin or subcutaneous benign mass – excision, biopsy				
Lymph node – biopsy				
Repair superficial cutaneous wound				
Other (<i>please specify</i>):				
Subtotal of all Minor Procedures				

B. Endoscopic or Microscopic Examination Procedures +/- Biopsy:

flexible or rigid endoscopy, microscopy examination procedures +/- biopsy,	total in this term	cumulative total (only need to report up to 30 for each procedure)
Nasoendoscopy/nasopharyngoscopy - flexible, rigid, +/- biopsy		
Sinuscopy, antral wash out, +/- biopsy		
Laryngoscopy - flexible, +/- biopsy		
Laryngoscopy +/- micro/endoscopic - rigid, +/- biopsy		
Stroboscopy, +/- biopsy		
Bronchoscopy - flexible, +/- biopsy		
Bronchoscopy - rigid, +/- biopsy		
Esophagoscopy - flexible, +/- biopsy		
Esophagoscopy - rigid, +/- biopsy		
Paediatric flexible laryngoscopy, +/- biopsy		
Paediatric rigid laryngoscopy, +/- biopsy		
Paediatric flexible bronchoscopy, +/- biopsy		
Paediatric rigid bronchoscopy, +/- biopsy		
Paediatric esophagoscopy - flexible, +/- biopsy		
Paediatric esophagoscopy - rigid, +/- biopsy		
Biopsy of ear lesion under microscopy		
Endoscopic examination of salivary duct		

C. Other Non-operative Non-endoscopic Procedures:

	total in this period	cumulative total (only need to report up to 10 for each procedure)
BPPV - canalith repositioning		
Skin allergy test		
Ear wax removal		
Change voice prosthesis		
Pure tone audiometry		
Tympanometry		

D. Temporal Bone Dissection

Procedures:	Number of procedures performed	
	this term	total
Cortical mastoidectomy		
Facial recess dissection		
Extended facial recess dissection		
Intact canal wall and decompressing tympanic and vertical portion of VII		
Exposure of the endolymphatic sac		
Tympanic ring removal		
Labyrinthectomy		
Translab. Opening of the IAM		

Middle fossa approach to IAM		
Total VII decompression (intact canal and middle fossa)		
Canal wall down mastoidectomy		
Stapedectomy		
Ossiculoplasty		
Other Procedures:		
total		

E. Cadaveric FESS Dissection

Procedures:	Number of procedures performed	
	this term	total
Complete fronto-sphenoethmoidectomy		
Endoscopic DCR		
Endoscopic orbital decompression		
Endoscopic optic nerve decompression		
Endoscopic pituitary surgery		
Endoscopic repair skull base defect		
Endoscopic nasopharyngectomy		
Other procedures:		
total		

F. Training Course:

Temporal bone dissection course:
FESS Course:
Others:

G. Journal Review and Presentation:
